

THERMOTEC LIQUID POOL COVER

Thermotec Liquid Pool Cover is a specially blended formula that forms a protective layer on the pool water surface. This reduces evaporation and heat loss to the atmosphere. Thermotec Liquid Pool Cover is compatible with all pool chemicals and has minimal impact on pH. A 1 litre bottle will provide 4 months of treatment for 40m² of pool surface area.

INSTRUCTIONS FOR USE:

1. Shake the bottle well before use.
2. Using the table below dose the required amount of Thermotec Liquid Pool Cover, whilst the pumps are turned 'on' to assist product distribution. Run the pumps for at least an hour after application, before allowing the invisible pool cover to form on the surface of the water.
3. Repeat the dose every month.

DOSE TABLE: Dose at 6.25 ml/m² per month

SURFACE AREA:	MONTHLY DOSE
20m ²	125ml
40m ²	250ml
60m ²	375ml
80m ²	500ml
100m ²	625ml

PLEASE NOTE:

- (I) In very cold water below 18°C (65°F), some harmless residue/cloudiness may be created that should disappear within 24 hours.
- (II) Do not store product at temperatures below 4°C (40°F).
- (III) Do not allow the product to freeze.

Legal disclaimer: The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide.

The above statements are based on information believed to be accurate and reliable. The purchaser assumes all risk of use and handling where the product is not used in accordance with the directions given.
